Optional Accessory.

Stylish LCD display
showing driving speed,
distance travelled, and
the status of your scooter.

E-mark front lights
together with LED Rear
lights ensure safety and
reliability in all driving
conditions.

Patented: user friendly
The automatic headlight
sensor design ensures the
highest safety when you
are on the go.

Patented: safety

1. If the **user** forgets to turn the seat to the central (correct) position before riding, then the scooter power will be shut down automatically.
2. If the **user** is hit by accident or seat twisted by hit, the power will be off to prevent the **user** from injury by the continuous accelerated power.
3. When the **user** stops to talk to someone for chatting (turn the seat angle to incorrect position) then the scooter will automatically power off to prevent the **user** miss-touch the accelerator to get injury.

Patented: safety

The Gravity Sensor detects the X & Y and Z three axes while the scooter driving on the uphill / downhill slopes. When the angle is over a certain degrees to cause possible turn over, the scooter will buzz and the speed will be reduced automatically.

Specification

Model	S420x R
Dimensions	139.6(L) x 68(W) x 111(H) cm
Front Tyres	13" (4.10/3.50-6)
Rear Tyres	15" (5.30/4.50-6)
Maximum Speed	9.3 mile/hr (15 km/hr)
Per charge Range(max.)	38.5miles (62km)
Turning Radius	73.11" (185.7cm)
Battery Type	12V 75AH
Battery Charger	Off-board 8A
Net Weight (w/o battery)	211.6 LBS. (96kgs)
Max Brake Incline	12°/350 lbs (160kgs)
Ground Clearance	5" (12.7cm)
Full Suspension	Yes
Weight Capacity	400 LBS. MAX (180 kg max)
A.T.O System	Yes
Seat Safety Detecting System	Yes
Motor	1.4 HP/2.0 HP
Super Alloy Gear Box	Yes
